GARAGE & CONDO DOORS

LEDA EI30 & EI60

Fire protection, smoke control and sound insulation are ensured only when a complete doorset is installed, including a fire door leaf (with gaskets, lock, hinges and drop down seal pre-assembled), door frame, door closer as well as a lock core and handle.

LEDA 1
EL30 & EL60

LEDA is available in all GREKO, CPL and PREMIUM colors.

LEDA is also available in all of the INLAY patterns.

HERSE

HERSE SET doors are designed for public and residential buildings as internal entrance doors or garage doors. These doors are not fire rated.

395	415	15.55	16.34	15" $\frac{1}{2}$ – 16" $\frac{1}{3}$

Wall Thickness

Take your wall thickness measurement from edge to edge (as illustrated here).

Measuring the Jamb Width

Jamb width refers to the thickness of the wall where the door unit will be installed.

Accurately measuring this is crucial when replacing a door unit. If the jamb is too narrow, it may leave the rough opening or framing exposed. On the other hand, if it's too wide, it will need to be trimmed to fit properly.

Incorrect jamb sizing can lead to issues like difficulty closing the door, poor sealing against outside elements, or drafts.

LAMELLAS

Lamellas are stylish wall elements, they can be easily mounted using a strip or adapters. Available in PREMIUM and ST CPL veneers presented on 'Colors' page.
